

# TECHNICAL DATA SHEET

FR413 (REV. 01)

## DEGREASING SOLUTION

### USE RECOMMENDATIONS

Product indicated as degreasing surfaces, removing waste, sanding dust, grease and wax.

### DATA APPLICATION

#### Catalysts and / or dilution

Product ready for use

#### Application

Moisten cloth or flannel with product and pass on the surface. The solution can be applied to plastic surfaces, metal-on complements and finishing applications.

### DRYING

Not applicable.

### SURFACE PREPARATION

Not applicable.

### SAFETY RECOMMENDATION

- Store in sheltered environments, ventilated and with maximum temperature 40 ° C.
- flammable product, keep away from sparks, sources of ignition, no smoking at the application site.
- Product when applied emanating vapors should be avoided with the correct use of PPE, such as masks and respirators, maintaining good ventilation during application.
- Avoid skin contact by using gloves, goggles, appropriate clothing, barrier creams etc.

This information represents the best of our knowledge at the time of its publication. We remember that the good result of the application of the products depends on factors beyond our control and that relate to surface preparation and expertise of the applicator. The company reserves the right to change these specifications without notice.

Revision Date: 6/28/2018

- Keep away from contact of children and animals.

## **COMMENTS**

The practical yield of this product is variable according to film thickness, application technique and method, kind and roughness of the substrate and environmental conditions, etc.

The values found for the testing: specific weight and drying (with specified thickness) was obtained in a laboratory at 25 ° C. With different temperatures mentioned, the values set forth above tend to be different than those specified.

The statements in this release are based on our experience and technical knowledge, however, some factors independent of our control as a manufacturer, such as surface preparation, application, working conditions, etc.

We assume no liability for damage or injury caused by misuse of the information contained in this bulletin and products mentioned.

This report is subject to change without notice.
